## Bio

Loyalty, Genuineness and Hardwork are the words which I live by. I put in my heart and soul into the tasks that I am assigned to. I have a strong sense of Creativity, Leadership and Management skills. I am a good team player and try to deliver my best in every aspect.

## Work Experience

Nov 2020 — Present  
(2.7 years)

### UX/UI Designer at Tata Consultancy Services Ltd

Worked in designing websites and apps for a major Australian banking client at TCS. Worked in more than 6 major projects of the bank. Based on the project, tasks varied from conducting User research and Designing User interface. All the projects were designed keeping Microsoft Fluent UI, Bank's enterprise design system, Material Design, and Human Interface Guidelines as reference.

#### Tools Used

Sketch | Invision | Figma | FigJam | Adobe XD | Photoshop | SharePoint Online

June 2020 — Oct 2020  
(Internship)

### UX/UI Designer at Maxc Studios

At Maxc, worked on two projects primarily. One was an end to end application for schools and colleges to conduct online classes efficiently. The other project was about a social networking app called Kutumb. Had to take ownership of the Notification and Connection modules of the app.

#### Tools Used

Figma | Adobe XD

Jan 2020 — April 2020  
(Internship)

### Product Specialist at ADDA

Interned at ADDA as an Associate Product Specialist. Primary task was to conduct User research to gain insights on ways to improve the existing experience of the app. Research methods varied from conducting in person interviews with Stakeholders and End users, surveys and gaining insights from site analytics. Also had a chance to work in an Agile environment and created and maintained sprint task. Was an active User Experience tester for the app in all platforms.

Figma | Photoshop | Zoho Sprints | MS Excel

## Freelance Projects

### Bright Smiles Orthodontics

Worked on designing a mobile responsive website for a family dentist. The primary requirement was to design a website with a modern outlook, it needs to be user friendly and would help her reach to a wider audience in her locality.

### Way to Wealth Traders

This is a Share Market Trading website where the client would help their students to gain knowledge about market trading and would help them make a passive income/living out of it. They wanted a website that would convey to the users about their professionalism and how premium / valuable their content is.
